Step2: Click on sign up button and fill your details.

After clicking on create account your account will be create.

b) Creating Repository:

Step 1: To create repository click on + Button.

Create your first project

Ready to start building? Create a repository for a new idea or bring over an existing repository to keep contributing to it.

[Create repository](#)[Import repository](#)

Working with a team?

GitHub is built for collaboration. Set up an organization to improve the way your team works together, and get access to more features.

[Create an organization](#)

Learn Git and GitHub without any code!

Using the Hello World guide, you'll create a repository, start a branch, write comments, and open a pull request.

[Read the guide](#)[Start a project](#)

Introduce yourself

The easiest way to introduce yourself on GitHub is by creating a README in a repository about you! You can start here:

Pujankc456 / README.md

```
1 - 🌟 Hi, I'm @Pujankc456
2 - ** I'm interested in ...
3 - 🌱 I'm currently learning ...
4 - 💡 I'm looking to collaborate on ...
5 - 📫 How to reach me ...
6
```

[Dismiss this](#)[Continue](#)

Discover interesting projects and people to populate your personal news feed.

Your news feed helps you keep up with recent activity on repositories you [watch](#) and people you [follow](#).

[Explore GitHub](#)

ProTip! The feed shows you events from people you [follow](#) and repositories you [watch](#).

[Subscribe to your news feed](#)

Step 2: Click on new repository.

The screenshot shows the GitHub mobile app interface. At the top, the status bar displays 4G, 3:39, and 52% battery. The app header includes the GitHub logo, the text 'GitHub github.com', and navigation icons. Below the header is a search bar and navigation links: Pulls, Issues, Marketplace, and Explore. A dropdown menu is open, showing options: New repository, Import repository, New gist, New organization, and New project. The main content area features a large green banner with the text 'Learn Git and GitHub without any code!' and buttons for 'Read the guide' and 'Start a project'. Below this is a section titled 'Introduce yourself' with a text area for a README file and a 'Continue' button. At the bottom, there is a section titled 'Discover interesting projects and people to populate your personal news feed.' with an 'Explore GitHub' button.

c) Cloning Repository:

Step 1: Click on add file button.

Step 2: Click on upload file button.

The screenshot shows the GitHub interface for the repository 'Pujankc456/IT-Tools'. At the top, there's a dark header with navigation icons and the repository name. Below this is a light blue banner with the text 'Learn Git and GitHub without any code!' and a green 'Read the guide' button. The repository page itself has a light blue header with the repository name and navigation tabs like 'Code', 'Issues', 'Pull requests', 'Actions', 'Projects', 'Wiki', 'Security', and 'Insights'. The 'Code' tab is active, showing a file list with 'Pujankc456 Initial commit' and 'README.md'. A dropdown menu is open under the 'Add file' button, showing 'Create new file' and 'Upload files' (which is highlighted). The 'README.md' file is shown with the title 'IT-Tools'. On the right side, there are sections for 'About', 'Releases', and 'Packages'. At the bottom, there's a footer with copyright information and links to 'Terms', 'Privacy', 'Security', 'Status', 'Docs', 'Contact GitHub', 'Pricing', 'API', 'Training', 'Blog', and 'About'.
